SEQUENCE OF EVENTS

THE EXECUTION: LETHAL INJECTION

REVISED 12/14/2004
The execution is initiated by opening the curtain.

The executioner then proceeds to administer the lethal injection.

After the curtain is opened, the executioner begins the process of injecting the lethal substances into the inmate's bloodstream.

The inmate's pulse and respirations are monitored, and any necessary adjustments are made to ensure that the lethal injection is administered correctly.

The curtain is drawn when the execution process is completed.

THE EXECUTION: LETHAL INJECTION
22. The witnesses are escorted out of the witness room, first the media, inmate's witnesses, and then the victim's witnesses.

23. The team will prepare the body for departure.

24. Release body per prior arrangements.

25. Funeral director completes death certificate.

26. Not more than one (1) day after execution, the Warden shall return the copy of the judgment of the court pronouncing the death sentence, of the manner, time and place of its execution.
EXECUTION TEAM QUALIFICATIONS

1. The following people with at least one year of professional experience may be on the IV team:
   a) Certified Medical Assistant, or
   b) Phlebotomist, or
   c) Emergency Medical Technician, or
   d) Paramedic, or
   e) Military Corpsman

2. Prior to participating in an actual execution, the member of the IV team must have participated in at least two (2) practices.

3. Members of the IV team must remain certified in their profession and must fulfill any continuing education requirements in their profession.

4. The execution team shall practice at least ten (10) times during the course of one (1) calendar year.

5. Each practice shall include a complete walk through of an execution including the sitting of two (2) IVs into a volunteer.

6. Execution team members, excluding IV team members, must have participated in a minimum of two (2) practices prior to participating in an actual execution.
STABILIZATION PROCEDURE AFTER THE EXECUTION HAS COMMENCED

1. In the event that a stay is issued after the execution has commenced, the execution team will stand down and medical staff on site will attempt to stabilize the condemned with the below listed equipment and personnel.

A. The Warden will arrange for an ambulance and staff to be present on institutional property.

B. A medical crash cart and defibrillator shall be located in the execution building.
